1/3 HP Primary Pump With 12V Back-up Pump System

Pre-assembled piping and check valves.

Maximum Head of 20 Feet

2400 US GPH

- Vertical float switch operates in basin as small as 14” or larger.
- Automatic start - stop cycle.
- 9’ grounded electric cables.
- Oil cooled, high efficiency motor.
- 1 1/2” discharge.

Prevents expensive water damage in case of power outage or primary sump pump failure.

Friction loss in pipe not included.
