# Wi-fi Water Watcher

**ALERTS YOU**  
**before any water damage**  
**occurs from your sump**  
**or sewage tank**

## DESCRIPTION

- 115V AC to 5V DC external power supply.
- Rechargeable lithium back-up battery with a 15-hour average life in case of power outage.
- Compatible with all smart phones.

## OPERATION

- The device is connected to the user's Wi-Fi network.
  - A detection float is installed in the sump or sewage tank.
  - The float is connected to the unit via a cable.
  - The float activates the alarm when the water level in the sump pit attains a critical level above normal.
  - When the alarm is activated, an SMS text message or an e-mail is sent to the user's 3 phone numbers and 3 e-mail addresses configured in the system.
- Sends eight types of messages:
    - 1) Transmission test
    - 2) Power source changed from 115V to battery back-up
    - 3) Low battery
    - 4) High liquid level
    - 5) High liquid level reminder
    - 6) Reset confirmation
    - 7) Confirmation of ongoing communication
    - 8) Loss of communication in the system.
